

Toy Donation Guide

Sydney Children's Hospitals Foundation really appreciates donations of toys, vouchers, and materials from the community. These donations ensure that babies, children and young people have access to developmentally appropriate resources, allowing them to have some much-needed fun and learn while in hospital.

We understand that you may wish to donate to a particular hospital, so when contacting us, please let us know, and we will ensure your donations are directed to your chosen hospital.

No matter how big or small a donation you are able to make, you can be sure it will impact a child's life in a major way! The donations we receive are used throughout the year for holidays, birthdays, milestones and even pick-me-ups.

We are asking you to consider donating gift cards instead of toys. Gift cards are a great way to support patients, as they help surprise them. Some popular gift cards are:

If you would prefer to purchase toys for patients, we are still happy to accept!

To ensure the toys are suitable and safe for patients, please make sure that you follow these guidelines.

All toys must meet Australian Safety Standards and must be brand new and unopened, with tags still attached for health and safety reasons. Unfortunately the hospitals cannot accept toys that resemble weapons, such as Nerf guns or swords. Similarly, the hospital cannot give out toys that have small detachable parts that can be swallowed or button batteries. We appreciate your understanding and thank you in advance for your kind donation.

How to find us! – CHW

Due to COVID, we need to manage the number of people coming to the Hospitals to ensure patient safety. Unfortunately, no entertainers, donors or community members are able to enter the hospital to drop off gifts. Instead, we have a couple of options for each of the hospitals below.

All deliveries or drop-offs MUST be pre-arranged with a staff member before arriving, so please make sure you contact SCHF. This ensures that the Loading docks and hospital staff are prepared to receive. Please note that if you have not booked in, we may not be able to accept your donation.

We ask that you are COVID safe when preparing and delivering your donation. It's also extremely important that you are 100% healthy with no symptoms and have not been in contact with anyone who is COVID positive.

The Children's Hospital at Westmead

To post your donation:
