

# Help raise funds for sick kids

**\$10,000**

Could contribute to a major building or refurbishment project to help us create a better healing environment for sick children and their families.

**\$25,000**

Could help fund a starter grant to support an innovative pilot research study to help improve or save the lives of sick children.

**\$3,510**

Could purchase an examination couch for our busy Emergency Department which sees more than 100 seriously ill or injured children each day.

**\$3,925**

Could fund a special monitor to measure how well oxygen in a child's blood stream is being carried to vital organs.

**\$4,500**

Could help fund genetic testing for a family desperately seeking a diagnosis for a child who has a rare disease.

**\$905**

Could help buy a range of specially adapted toys for children with neurological and physical disabilities who find it difficult to play with regular toys.

**\$1,480**

Could fund a specialist training doctor known as a Fellow to provide support up to 10 children with a neurological condition.

**\$2,200**

Could buy a specialised hand-held light that can be shone through the limbs to locate small veins when needles need to be used.

**\$10**

Could buy bottles of bubbles to distract and entertain children undergoing painful procedures.

**\$50**

Could provide a Child Life Therapy play or music session for one child or a small group.

**\$200**

Could provide materials for a pop-up art workshop beside a child's bed.
